

Virtutone provides the following services:

Local Phone Lines:

Virtutone provides a local phone number with all standard calling features included with every line. These features include:

Voice Mail * Caller ID * Call Waiting * Call Forwarding * 3-Way Calling * Detailed Billing.

Digital Phone Systems:

Virtutone has developed a digital phone system at a ***fraction of the cost*** of a traditional phone system, while providing more features than the traditional phone system.

Internet Connections:

Virtutone can provide you with a full range of internet connections, from DSL and cable within ***1 week*** installed to your location or faster services such as T1 and E10 within 90 days of signing up.

Fax and Data Lines:

Virtutone has developed its own proprietary fax and data line solution for businesses.

This system is the only system in the world that allows a business to ***use a standard fax machine*** while taking advantage of the lower cost of internet-based services.

Long Distance Packages:

Virtutone can provide you with ***low-cost long distance*** packages that meet your business needs.

No matter what type of business you're in, we have a package for you.

Trunk Lines:

If you already have an existing phone system that meets your needs, Virtutone can provide you the trunk lines to your existing phone system that will allow you to take advantage of the ***low-cost*** lines fees, features and long distance.
